Event 02: “Ignorance is Bliss”

Fabienne Felder

Talk - Discussion - Apéro

Registration required at www.getBriefed.org

Hear the story of “Moss FM”, a radio powered by plants. This story started with an impossible question and ended up being a highly successful, yet complicated marriage of biochemistry and design - created by someone who was neither a biochemist or biologist, nor a designer or engineer. Moss FM illustrates the power of collaboration, curiosity, perseverance, and most of all: the power of not knowing what the heck you're doing.
