in Life Sciences  
October 20<sup>th</sup>, 2016

Schloss Au, Wädenswil - Switzerland

Principal Investigators and PDs are welcome to join this event!  
Limited places!

[www.chem.uzh.ch/en/events/postdocday](http://www.chem.uzh.ch/en/events/postdocday)

Deadline for Registration: July 25<sup>th</sup>, 2016

Enjoy a great conference next to lake Zurich with  
great researchers and best ambient for discussions!

# Post-Doc-Day 2.0

## 20<sup>th</sup> of October 2016

Schloss Au, Wädenswil  
Switzerland

### **Postdoc, what is coming next?**

Enjoy a one-day conference especially created for postdoctoral research fellows in the Life Sciences, featuring:

Scientific plenary talks, short talks and poster presentations

Workshops on career development

Career talks

Increase the visibility of your research by presenting your work at this conference. Get to know what your colleagues are doing elsewhere on the campus. Discuss recent research developments and future challenges. Exchange ideas and initiate collaborations. Make valuable contacts and get input from your fellow postdocs, professors and plenary speakers.

Importantly, what is coming next? Do you need to take decisions about your professional career?

Discuss the situation and needs of the postdoc community. Get informed about career opportunities and learn more about your academic or non-academic perspectives. Be inspired by career talks and actively participate in workshops on career development given by professional trainers.

Principal Investigators and Privatdozenten are welcome to register and attend the conference!
